

PRINT THIS PAGE AT 100% on A4 AND USE THE GUIDE BELOW TO HELP YOU DETERMINE YOUR RING SIZE

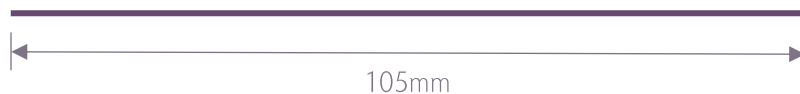

Find a ring that fits you well. If you are using this guide to purchase a new ring, make sure your existing ring is a similar width to the one you are wanting to buy as wider bands will feel tighter on your finger and slimmer bands looser.

Place your ring over the circles, lining up the inside edge of the ring with the closest fitting circle. The outside edge of the circle should touch the inside edge of your ring. If your ring falls between two sizes, select the larger size for comfort.

Please note that whilst this guide will give you a fairly accurate measurement of your ring size, we would always advise that you have your finger / ring measured by a professional jeweller if at all possible.

To make sure the dimensions on this guide are accurate,
this line should measure exactly 105mm.
